# WOODEN VENETIAN BLINDS

**AEROLUX WOODEN VENETIAN BLINDS** are produced from America's finest basswood material. Suitable for all atmospheres, fitted on aluminium head-rails with our engineered double cord lift mechanism, these blinds are available in many shades of 25mm, 50mm & 65mm width along with matching ladder tape or ladder string options. Available in manual cord lift, continuous chain tilt and lift or motorized option with touch screen RF remote control. Aerolux wooden blinds offer the lowest stacking and maximum visibility.

**AEROLUX WOODEN VENETIAN BLIND**  
with 25mm wide slats and with cover

**AEROLUX WOODEN VENETIAN BLIND**  
with 50mm wide slats and with cover

**AEROLUX WOODEN VENETIAN BLIND**  
with 65mm wide slats and with cover

String Ladder for 25mm or 50mm Wooden Blinds

Tape Ladder for 50mm Wooden Blinds

**AEROLUX WOODEN VENETIAN BLINDS**

are made of basswood having a moisture content of 8-12% and weighs about 1.7 kilograms per square meter. The weight factor is crucial for smooth lifting and the low moisture prevents the slats from warping. The motorised blinds are fitted with special 5mm tape for long term durability. Central Motor System with both side shaft outputs add extra strength and is offered with touch screen RF remote control.

Manual System

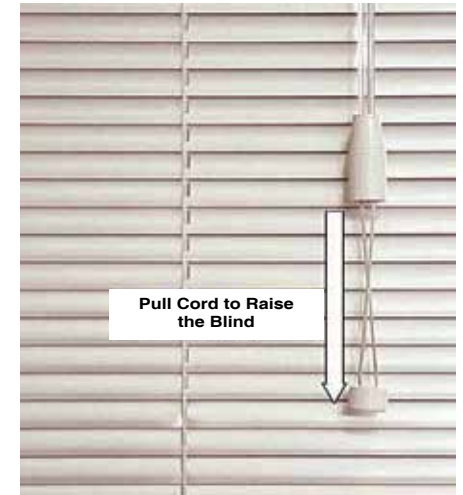

**AEROLUX VENETIAN BLIND** with 89mm wide polymer slats

# VENETIAN BLINDS

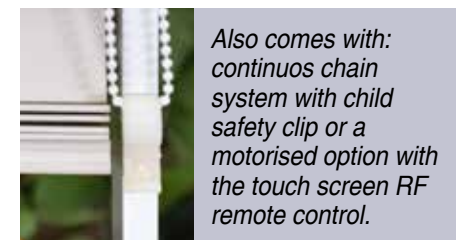

Aerolux is the pioneer in developing the original version of aluminium venetian blinds in India and now re-introduces 50mm Aluminium Blinds. These blinds are fitted with specially developed mechanisms for smooth lifting & tilting operation, are easy to maintain and offer lowest stacking and maximum visibility. This innovation is now perfected by 50 years of Aerolux experience, quality and engineering skills.

## AEROLUX VENETIAN BLINDS

*Our Venetian Blinds are fitted with specially developed mechanisms which enhance both lifting and tilting by a single shaft operation. This is especially suitable in a curtain wall scenario where blinds are put in line from one end to another.*

*Available in all aluminium 25mm wide and 50mm wide Venetian Blinds*

*Also comes with: continuous chain system with child safety clip or a motorised option with the touch screen RF remote control.*

**AEROLUX VENETIAN BLIND** with 25mm wide aluminum slats

**AEROLUX VENETIAN BLIND** with 50mm wide aluminum slats

**AEROLUX POLYMER BLIND** with cover

Unique curved vanes for Light Control

**AEROLUX POLYMER BLINDS** fitted with polymer vanes from USA in 89mm width having curved louvers that control the outer light and view giving you better light control and privacy.

Available in various designs and colors, being easy to clean is the most important aspect of our Polymer Vertical Blinds. Also, this concept eliminates the need of both bottom weights & bottom chain which results in a uniform appearance and closure from top to bottom. Also available in Horizontal model.

**Aerolux Polymer Vertical Blind**

**VERTICAL BLINDS**

**AEROLUX FABRIC BLIND** without cover

**Aerolux Fabric Vertical Blind**

**AEROLUX 89MM FABRIC VERTICAL BLINDS** are fitted with self-adjusting runners and mechanism. Available in a wide range of all-American fabric, the bottom of these blinds are inserted with metal inserts which are embedded in high grade Polymer weights and connected with decorative chains.

# CURTAIN

**AEROLUX RIPPLE FOLD CURTAIN** - Intelligent equal fold design fitted with a special ripple fold mechanism fitted on a designer track. Easy to remove and hang the Aerolux ripple fold curtain system is a must for all hotels and homes. Available in a variety of special single layer blackout fabrics and wide width sheer fabric for seamless view. Also available in manual pull or designer low noise motorised system with manual override in case of power failure. Made with fabrics from USA.

**AEROLUX EYELIT CURTAIN**

**AEROLUX 3 PLEAT CURTAIN**

**RIPPLE FOLD BLACKOUT**

**RIPPLE FOLD SHEER**

**AEROLUX RIPPLE FOLD CURTAIN TRACKS**  
*are specially powder coated on both sides for frictionless operation*

**AEROLUX RIPPLE FOLD CURTAIN MOTOR** *is specially designed with a built-in transformer, memorised limit, intelligent radio controlled obstruction detection, "Soft-touch" start function. 100-240 volts, 50Hz-60Hz 1.2 Nm. Safety curtain weight upto 30 Kg or 65 lbs. with 14 cms or 5.5 inch per second speed with current rating of 0.14 A.*

*"Touch Screen" RF remote Control"*

## ROMAN BLINDS

**AEROLUX ROMAN BLINDS** with years of engineering excellence, Aerolux has designed the Roman shade on specially designed aluminum profiles that have a unique lifting system that makes them extremely smooth and quiet.

Aerolux Roman shades are manufactured with a step-fold design that results in a most sophisticated and tailored pleated look when the blinds are folded up. Clean and contemporary, the uniform pleats produce a stunning cascade effect when up and a smooth, modern look when lowered.

Aerolux has engineered the Roman shades in both manual and motorized operating systems.

Roman shades offer the luxurious look and feel of drapes but extends its versatility and functionality to that of traditional window blinds. Aerolux has perfected the style and design of the Roman shade, offering varying fabric options that not only offer a distinct look but also offer varying light filtration.

**AEROLUX ROMAN BLIND** without cover

**AEROLUX ROMAN BLIND** *with cover*

*With different light filtering fabric options, you can choose the exact amount of privacy and/or sunlight that you would like to come through the shades with:*

- *Traditional Black out fabrics for for privacy and no light*
- *translucent fabrics that will allow for some light*
- *shade screen material that will allow for 10% of light to come through.*

*With the roman shade, you set the ambiance of your living space with our vast fabric selections. With bold patterns, beautiful prints or simple solids*

*in an array of magnificent textures and colors, we can transform your living space to give you the look and feel you have always desired....*

# ROLLER BLINDS

**AEROLUX ROLLER BLIND** *without cover*

**AEROLUX ROLLER BLINDS** simple and discreet, roller shades polish a room and offer desired light protection, with a minimalistic look. The Aerolux roller blind operates on a system that essentially allows the roller shade to cleanly roll up onto a tube and fit discreetly under a headrail, making them essentially invisible when build up. Available in a wide array of light filtering fabrics in an unlimited array of colors, styles and textures you can add sophistication and completion to a room easily and within your budget.

The Aerolux roller blind is engineered and designed on a specially designed grooved aluminum profile and with ball bearing inserts for the ultimate smoothness in lifting and lowering. The roller blinds are completed and adorned with the most contemporary headrail that completes the overall look, available in matching colors and textures, including metallics. Aerolux offers its roller blinds with a manual operating system on a beaded chain or with a silent motorized operating system controlled by a sleek remote, all especially engineered and designed by Aerolux.

The fabric selections range from sheer to black out, with different light filtering fabric options, depending on the amount of privacy and/or sunlight that you would like to come through the shades with:

- Traditional Black out fabrics for privacy and no light
- translucent fabrics that will allow for some light
- solar shades that will allow for 10% of light to come through.

With the roller shade, you set the ambiance of your living space with our vast fabric selections. With fun and bold patterns, beautiful prints or simple solids in an array of magnificent textures and colors, we can transform your living space to give you the look and feel you have always desired....

*Aerolux Room Darkner Roller Blind*

**AEROLUX ROLLER BLIND** *with cover*

**SHADOW GLIDE**

**AEROLUX SHADOW GLIDE ROLLER BLINDS** .... have a shade that not many have seen before...

*Being a market leader in the window coverings industry for over 50 years, Aerolux brings the shadow glide roller shade with its innovation and creativity.*

*The shadow glide roller shade is one of Aerolux's signature products. Offering the most modern and contemporary look and feel, the shadow glide gives you the full option of using it as a complete sheer shade that allows maximum sunlight to shine through or with a slight pull, allows you the protection of a translucent blind. Offering the simplicity and ease in use as a normal roller blind, aerolux has created a roller shade that looks stunning and is creatively practical.*

*The dual fabric cleverly overlaps translucent and opaque horizontal stripes, allowing the desired light to shine through. By simply sliding one layer over the other, you can create a variety of gorgeous effects that are modern yet elegant.*

*Just as simple to use and operate as a normal roller blind, The roller shade can also be completely rolled up to discreetly fit under the head rail, making it an invisible when it is not lowered. However, when completely lowered, the shadow glide makes a stunning statement with its inherent ribbed textured look. Aerolux manufactures the shadow glide roller blind on specially designed grooved aluminum profiles with ball bearing inserts for the smoothest lifting and lowering experience.*

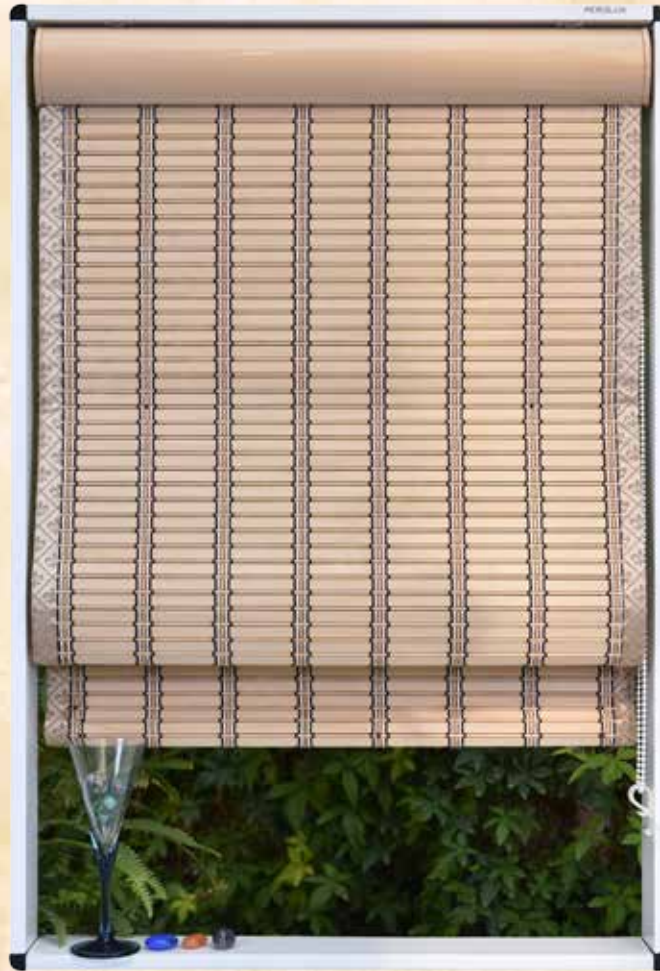

*Aerolux offers this most stunning roller blind product in a huge array of colors, patterns and textures. The shadow glide is also adorned with a complementing headrail, available in matching colors, including metallics. The Aerolux shadow glide roller blind has been designed and engineered in both a manual cord pull operating system as well as a motorized system that is accompanied with a sleek handheld remote.*

# HERITAGE BLINDS

**AEROLUX HERITAGE BLINDS** are made of specially treated wood plaiting material. The strips of wood are woven on special computerized weaving looms with many eye-catching threads. They are available in roll-up, ripple fold and roman style mechanisms.

**AEROLUX HERITAGE RIPPLE FOLD**

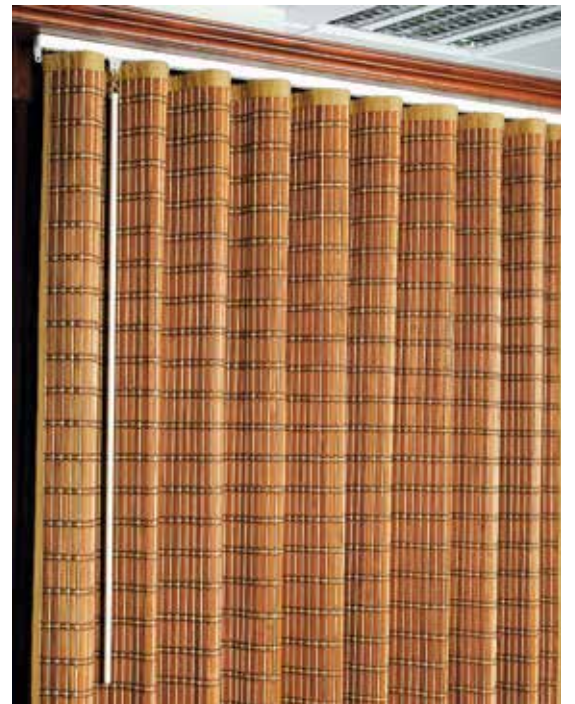

**AEROLUX HERITAGE ROMAN BLIND**

**AEROLUX HERITAGE ROLL UP**

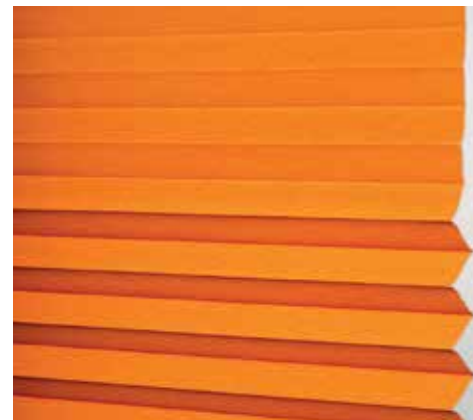

**AEROLUX PLEATED BLINDS** are fitted with a special mechanism which ensures symmetric pleats throughout the blind. Offered in a manual cord pulling system without top cover, or with continuous chain pulling system with cover. These blinds are available in a wide range of European fabrics which can be assembled on one-way, two-way or day-night mechanisms.

**AEROLUX PLEATED BLIND** with cover

## PLEATED BLINDS

## GARDEN UMBRELLAS

**AEROLUX ALUMINIUM AND WOODEN UMBRELLAS** are specially engineered for extra strength. The rib size is 17x35mm and the one-piece centre pole is 46mm in diameter. Made with 100% solution dyed acrylic fabrics from Europe. They come with a concrete umbrella base in white, brown and green colour.

### ALUMINIUM UMBRELLAS

- Aerolux Aluminium Umbrella comes in a Stainless Steel Brush Finish
- Our Aluminium Umbrella rib size is 17x35mm unlike a conventional umbrella rib size of 13x22mm.
- The center pole of these umbrellas is 46mm in diameter and is made of ONE piece of Aluminium, unlike the conventional two part umbrellas which have a metal bracket in the middle.

### WOODEN UMBRELLAS

- Aerolux Wooden Umbrella rib size is 17x35 mm unlike a conventional umbrella rib size of 13x22 mm.
- The center pole of these umbrellas is 46mm thick and is made of ONE piece of wood, unlike the conventional two part umbrellas which have a metal bracket in the middle.
- Special CORONA brackets attached to the hub for extra strength.

Aerolux introduces an exclusive collection of water-resistant, all-weather outdoor fabrics with over 150 shades, designs and textures to choose from.

# TRANSPARENT MONSOON BLINDS

**AEROLUX TRANSPARENT MONSOON BLINDS** are specially engineered by Aerolux to withstand strong winds & rains, while allowing clear visibility. Produced with special UV scratch-resistant PVC, stainless steel fittings & wires to protect against rusting, these blinds are available in manual cord pull, Crank shafts with gear and motorized operations.

*Aerolux installed in Maldives*

*Aerolux installed in Mauritius, excellent for outdoor cafe, bars, restaurants. Blinds are wall mount on top, floor mount on the bottom.*

*Aerolux installed in Maldives*

*Aerolux installed in Seychelles, Blinds are ceiling mount on top, floor mount on bottom, wide openings are split in 2 blinds with s.s. wire in the center.*

**AEROLUX TRANSPARENT MONSOON BLINDS** are versatile, durable and are engineered to fit any configuration **even circular**. With this design creativity and innovation, Aerolux Transparent Monsoon Blinds are seen and desired in premium hotels and exclusive resorts around the world.

**AEROLUX TRANSPARENT MONSOON BLINDS** are specially fabricated from high grade UV stabilized transparent PVC, stitched with 100% solution dyed acrylic fabric to cover the designed aluminium profile at symmetric intervals to match your decor.

Aerolux installed in Maldives

Aerolux installed in Maldives

Aerolux installed in India

*Aerolux installed in the Maldives, provides comfortable seating with an unobstructed, clear view of the stunning landscape while protecting against rain and wind blowing through.*

*Aerolux installed in Maldives*

*Aerolux installed in Tennessee, USA*

*Aerolux installed in Mauritius*

*Aerolux installed in India*

*Aerolux installed in India*

*Aerolux installed in Maldives, at a lobby front, where the main entrance splits into 3 blinds due to extra wide opening. The blinds are installed on top with a wall-mount whereas some are fixed on the bottom with a floor-mount.*

Floor Mounting

### Some Salient features of Transparent Monsoon Blinds

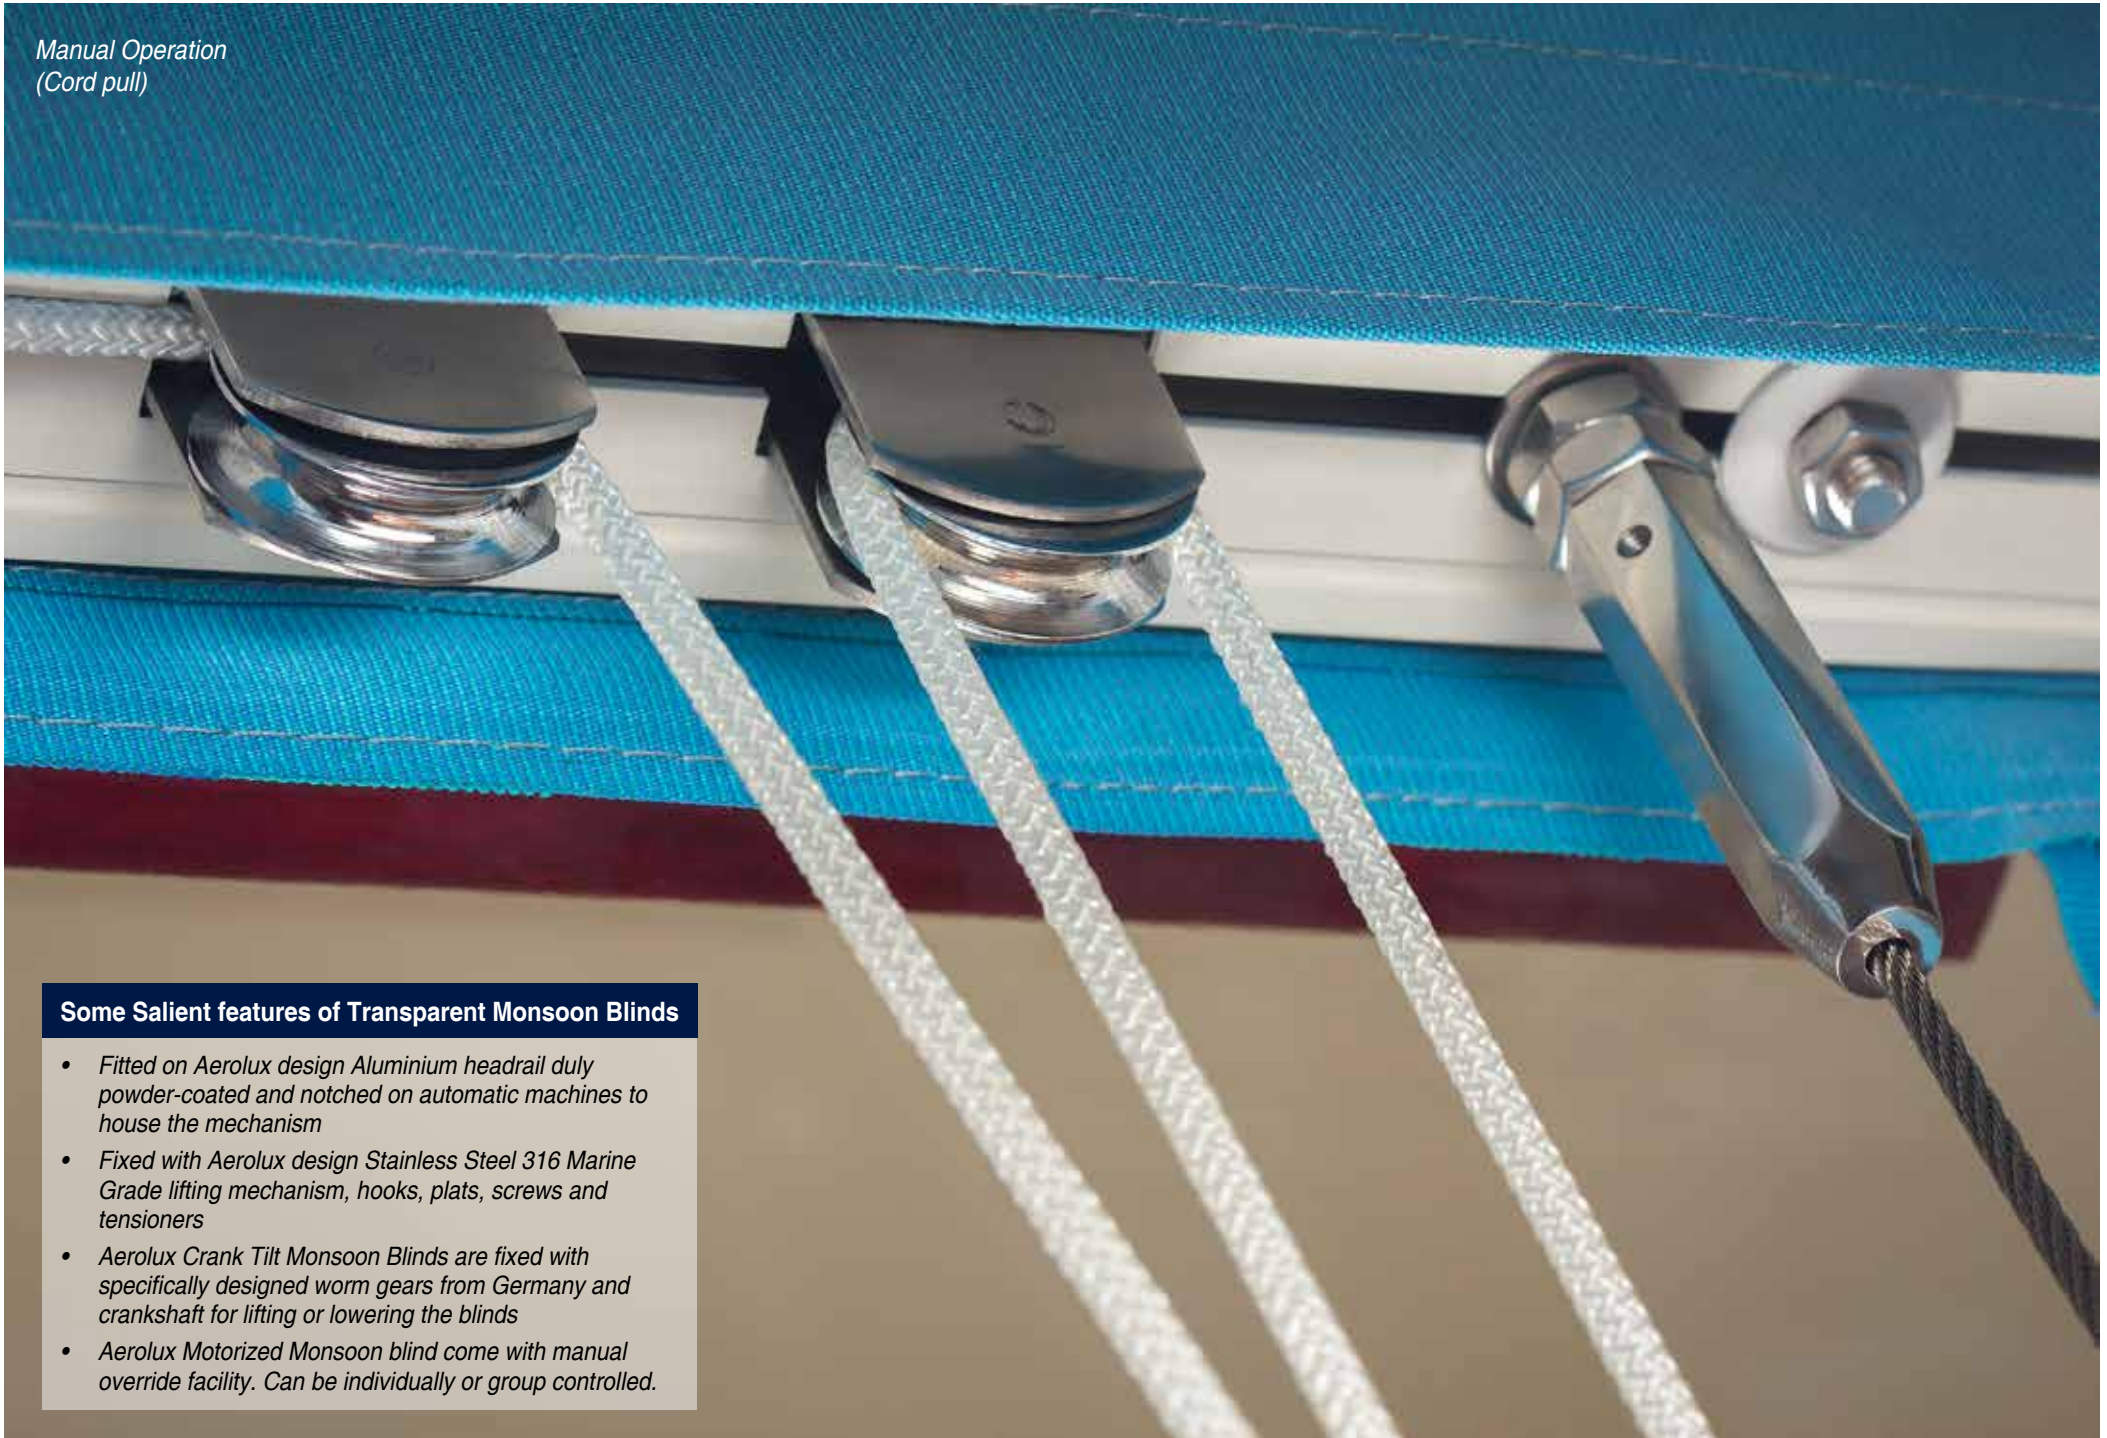

- Manufactured from high grade Aerolux 0.5mm thick supra-soft see-thru clear PVC that prevents it from becoming brittle in strong sunlight
- Aerolux specifically formulated composition having 5 PhR to make Aerolux Monsoon Blinds highly resistant to Ultra-Violet rays and prevent it from discoloring.
- Hem Stitched on both sides with inserts of 100% solution-dyed Acrylic fabric for durability and strength.
- Horizontal bars are inserted with specially Aerolux designed oval shaped aluminium extrusions to withstand strong wind pressure up to 50 kmph.
- Horizontal bars are wrapped with 100% solution-dyed Acrylic fabric to withstand the strong sunlight.
- Supported with specially manufactured Stainless Steel 316 Marine Grade 7x7 strand 4.5mm thick wires for durability and strength against high wind pressure.
- Installed on Aerolux design brackets made from single-extrusion aluminium profile.
- Aerolux manual cord-pulling Monsoon Blinds are operated by 6mm pre-shrunk, pre-elongated core-less polyester cords for ease of operation.
- Aerolux Monsoon Blinds, when folded up, are hidden behind removable covers made from 100% solution-dyed Acrylic fabric.

Geared Crank Operation

Manual Operation  
(Cord pull)

#### Some Salient features of Transparent Monsoon Blinds

- *Fitted on Aerolux design Aluminium headrail duly powder-coated and notched on automatic machines to house the mechanism*
- *Fixed with Aerolux design Stainless Steel 316 Marine Grade lifting mechanism, hooks, plats, screws and tensioners*
- *Aerolux Crank Tilt Monsoon Blinds are fixed with specifically designed worm gears from Germany and crankshaft for lifting or lowering the blinds*
- *Aerolux Motorized Monsoon blind come with manual override facility. Can be individually or group controlled.*

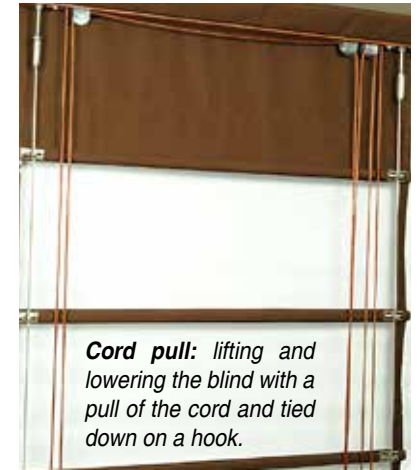

**CLEAR (TRANSPARENT)**

**SHADESCREEN**

**Cord pull:** lifting and lowering the blind with a pull of the cord and tied down on a hook.

**Crank Shaft:** Most popular: the Monsoon blind is lifted and lowered with the help of a crank shaft, just like awnings.

**Motorized:** With remote control.

*Our Monsoon blinds are specially fabricated from high-grade UV stabilized transparent PVC. Stitched with acrylic fabric to cover the designed aluminium profile at symmetric intervals to match your decor, these blinds are available in all-clear, opaque and translucent models.*

**SHADESCREEN WITH CLEAR TRANSPARENT PVC**

**FULL FABRIC**

*Aerolux installed in the Maldives*

*Aerolux installed in Ohio, USA,  
for protection against snow and wind.*
